

## **Deacons Discussion Cross Display?**

### **FM1097 Old Cross:**

- Made contact with the caretaker of the ranch on FM1097 where the cross used to stand (west of Bentwater near the intersection with Lake Mt Pleasant Road)
- Offered North Shore Deacons assistance on getting that cross planted again
- Got a series of conflicting answers from the caretaker
- Later was told that the ranch has already been sold to a developer

### **Propose a Cross on our NSChurch Campus?:**

- Are the Deacons interested in building and maintaining a cross near FM1097 on North Shore Church property?
- It was proposed that we relocate the three existing crosses by the gazebo. Thoughts?
- Would have to avoid the planned new entrance and stay outside (south) of all utility easements
- If a North Shore cross, then:
  - Material: wood (for authenticity) or metal (for longevity)?
  - Size (small, medium or LARGE)?
  - Single cross or three crosses?
  - Lighting (power is available from existing sign board)
  - How/who to fund? Budget?

**Decision** following discussion: table discussions about an on campus cross display until A) TxDOT fully widens FM1097 to the planned five lanes; will probably expand the easement abutting North Shore property and B) until plans (timing, \$\$\$, design, location, etc.) are finalized for the replacement North Shore sign along FM1097
