

The stage is being set for global tyranny in previously unimaginable ways. Yesterday's science fiction stories have become today's headlines as technological advancements provide powerful new tools in the Luciferian arsenal. Thanks to stunning developments in the realm of artificial intelligence, a full spectrum planetary control grid is now well within reach for Satan's earthly co-conspirators.

The two-volume series, *Spirit of the Antichrist*, exposed various ways Satan's accomplices are pulling the strings of world affairs, building an empire cloaked in deception, and setting the stage for the arrival of the Antichrist. *Spirit of the False Prophet* continues the investigation into the Luciferian Conspiracy by digging deeper into the role of the False Prophet. How will AI, biometric surveillance, digital currency, and a worldwide digital ID system pave the way for the coming global technocracy and the mark of the Beast?

Dr. J. B. Hixson is the founder and president of Not By Works Ministries. A pastor, professor, and national conference speaker, Dr. Hixson has authored twelve books and contributed to many theological journals and other Christian publications. He earned his B.A. from Houston Baptist University; Th.M. from Dallas Theological Seminary; and Ph.D. from Baptist Bible Seminary. For more information, please visit www.NotByWorks.org.
