

5 Barriers to Extending Hospitality

BARRIER 1 | CLIQUES AMONG MEMBERS

- Members don't notice guests.
- Members are friendly only with each other.
- Members do not seem interested in meeting people they haven't met before.
- Members are overly focused on catching up with their closest friends.
- Members view extending hospitality as something that only designated ushers and greeters do.

BARRIER 2 | NO VISION FOR EXTENDING HOSPITALITY

- Members do not view extending hospitality as being core to the Gospel message.
- Members do not view extending hospitality as something that should happen at EVERY church activity.
- Members do not view extending hospitality as one of the marks of discipleship - a spiritual practice.
- Members do not recognize the difference between being a "friendly" versus a "befriending" church.

BARRIER 3 | MEMBERS DON'T TAKE PERSONAL OWNERSHIP FOR WELCOMING GUESTS

- Members/leaders do not personally greet people they haven't met before.
- Members are not challenged to move beyond their comfort zones when extending hospitality.
- Church leaders do not clearly communicate that all members are part of the hospitality team.
- Members do not introduce themselves to people that are seated near them.

BARRIER 4 | LACK OF VOLUNTEERS IN KEY MINISTRY AREAS

- Volunteer(s) to organize and oversee hospitality ministries.
- Volunteer(s) to help invite members into hospitality ministry areas.
- Volunteer(s) to coordinate and schedule hospitality volunteers.
- Volunteer(s) to help train greeters, ushers, and Welcome Center Volunteers.
- Volunteer(s) to help recognize and encourage volunteers such as teachers, worship leaders, and custodians.

BARRIER 5 | NO PLAN FOR CONNECTING GUESTS TO THE CONGREGATION & ITS MINISTRIES

- Lack of a detailed assimilation process; this begins with gathering church visitor contact information and inviting guests to participate in the mission and ministries of the church.
- Lack of a plan for deepening engagement with guests that extends into their daily lives.
- No process exists for tracking regular guests or following-up when regular guests stop coming.
