## Communicating a Vision for Lifelong Faith

Our vision for lifelong faith formation includes the development of roadmaps for surrounding people other Christ followers who will connect with, care for, and encourage each other. It includes plans for forming faith at church, at home, online, and in our community. We will introduce faith practices and playlists and will use our communication portals to help people form faith everyday, everywhere, and with everyone.

What do we need to write or say about . . .
