# Material Translation in 2025

One of our main goals for the years ahead is to translate more of our materials into languages other than English.

**¿Es la Iglesia  
Católica  
Romana  
la Única Iglesia  
Verdadera?**

As part of the translation effort, we are planning to launch about **43** more tracts soon on our website that have been recently converted from English to Spanish.

We will also be researching converting other material into popular languages of the world, such as Arabic and Hindi, to potentially reach out to millions more around the world.

One possibility is converting the spoken audio, or providing subtitles, for our **Saved??!** video series. This series deals with the question “What must I do to be saved?” Each episode is less than 30 minutes and God’s plan of salvation is included in every episode!
