

Accessing Files from the AJW Flash Drive on Your iPhone

Step 1: Remove Your Phone Case (If Needed)

Some cases may prevent the flash drive from connecting securely. Remove the case if necessary.

Step 2: Plug in the AJW Flash Drive

Insert the flash drive into your iPhone using the Lightning or USB-C connector, depending on your phone model.

Step 3: Open the Files App

Find and tap the Files icon on your iPhone's home screen.

Step 4: Tap "Browse" at the Bottom

This will take you to a screen where you can view all storage locations.

Step 5: Find the Flash Drive Under "Locations"

Look for the name of the flash drive (e.g., "External Storage" or brand name). Tap it to open.

Step 6: View or Listen to Your Files

Browse the contents. Tap any file to open, listen, or download as needed.

Troubleshooting Tips:

- Make sure the flash drive is fully inserted.
- If you don't see it in the Files app, unplug and reconnect it.
- Ensure your iPhone is updated to the latest iOS version.
