

February Testimonies

Greg prayed for a Baptist friend of his who was having pain in his chest, and it went away. He didn't say anything right away because he wanted to be sure it was gone. Susie also prayed for the man's wife who had a broken ankle, and a sprained ankle so couldn't walk. The next day she was up moving around!

Lately, because of a book I am reading, I am asking the Lord when he gives me a word for myself; what will be a sign to show me what you say is true? Then I write down what comes to me in whatever way it comes. It's a good way to measure how we heard God for ourselves because when we give someone else a word, we don't always have feedback. In January, God gave me a word that I cannot share, but he said a sign that I would see would be hearing loudly chirping birds. The signs did not come as expected at all. The first sign was Jeni and Ralph's daughter Angi, giving Kevin and I a verse about the season changing and hearing different birds. My senses peaked at that and I kept wondering. Then we went to a basketball game and during that game there were a group of people who whistled like chirping birds off and on through the whole basketball game. It was extremely loud. Ha. Prophetic words often don't come like we expect! I encourage all of you to be asking for signs and tracking what God says to you. Be on the lookout for the signs to come in unexpected ways. – Felicia
