

## November Testimonies

- Whoa Jack & Jesus!

3-5 weeks ago had a short visit with Portland High School Volleyball Head Coach.

I testified of the LORD using me to heal 4 shoulders. She's a believer & got excited. She had me pray over her shoulder as a representative for a player that had an injured shoulder. She felt something.

Whoa Jack & Jesus! She reported a week later player said HEALED!

Alleluia! Multiplication Lord! BE BOLD! You can have exciting testimonies also. -Denise Keen

- A family member was sick and I had faith for healing. I had a vision of a birthing stool and knew it was time to send her off to glory. I was able to just have thankfulness to the Lord. Our family impacted the nurse during her passing so much and the nurse ended up thanking our family for inspiring them. - Anonymous
- My mother-in-law came to visit us recently. She had her hands and thumbs taped all up. Apparently, she just had shots in her thumbs due to arthritis and lots of pain. My husband and I prayed for her. By the end of the night, she could use her thumbs again and take all the tape off her hands. She was very blown away. She kept mentioning and noticing improvement after improvement. She said even some of the bruising left quickly.

Secondly, during our annual woman's gathering I had a headache. Sandy prayed for me and it left. The same weekend something was bothering my eye. Almost like there was something in it, but I couldn't find anything. Jacquie prayed for me and said something to the effect of "let there be tears of joy that flood out what doesn't belong." Not sure the exact wording. Anyway, it got so bad that I eventually was going to walk to the bathroom to flush out my eye. My eye started watering on the walk to the bathroom and instantly it was over. Made me giggle that it was the tears like Jacquie prayed that ended it. - Felicia
- I want to share a testimony about God making a way...

My mom and I were in town at a women's event at Lebanon Foursquare many years ago. Right at the end of the event, a terrible windstorm came through. It knocked out the electricity and blew things everywhere. There were a lot of branches and things down, but as we headed towards home out of town the road was blocked by trees that had fallen across the road. We tried another route, which was also blocked. We started singing, "God will make a way when there seems to be no way..." The next road we took had debris all along it, but we were able to go down it along a back way and finally made it home. He is the way maker! Sometimes it is the "scenic" way, but it gets you there safely. -Grace
