

May Testimonies

- Killian, my six year old, was helping greet in the lobby on a Sunday morning. He looked at two of the men from our church, Jimmy and Dennis, and asked them why they had a cane. He told them we don't need canes in Heaven so they don't need canes here either. I did not observe this but my husband and another friend both told me about it. I asked him later if he talked to Jimmy and Dennis about their canes. He told me, "Oh yeah, I healed them. I healed them in the name of Jesus." We learned later that Jimmy has not been walking with his cane for a few weeks. There is no junior Holy Spirit; our kids who love Jesus can serve Him just as well as adults, sometimes even better with their childlike faith. -Charyse
- Bethany had found a lump behind her jaw. Her doctor had referred her to get it checked out. We prayed that the lump would be gone, and when she went to the appointment, they could not find a lump! It was gone! Please keep Bethany in your prayers. She is currently pregnant and dealing with dizziness, as she has in past pregnancies. Praying for the dizziness to go and her to have energy. Thank you Jesus for knitting the baby together in her womb and being with both mama and baby! Please be praying over the whole family as they situate to receive this new addition. Thank you prayer warriors!!!!
- When we dropped off our paperwork with our tax preparer, we knew we were going to have to pay. I had been saving a certain percentage of my income to pay those taxes but my husband has been unemployed since November so we had ended up using that money for stuff like bills and food. Our tax preparer told us that there was an Oregon State Kicker coming so that would help cancel out some of what we would probably owe. When we went back to pick up our taxes, I got in the car and before I even knew what the report was, I said, "Lord thank you for the results of our taxes and that it's not going to be devastating to us." We got there and found out we only had to pay \$145.00 to Federal and we got over \$1,500 back from the state! We never thought we would actually be getting money back. Praise the Lord! -Sandy
- So, I have to testify to what God has done today! (4/21/24 service with Angelica Rapley) During the praying time I just prayed for myself and did everything she said. Right now, my back's not hurting anymore! I just took out the trash and went to the mailbox and it's still not hurting! -Joanna Pickle
- Saturday morning, I woke up and decided I was going to clean my car, inside and out, since it was nice outside. I started with the inside knowing it was going to take while because I had to scrub mud out of my seats from the kids shoes. About half way through cleaning the inside of the car I felt a couple rain drops and I said "Lord please just let me finish cleaning the car!" As soon as I finished washing and drying the outside of the car and got all my cleaning stuff put away it started pouring rain. While I was thankful that He waited until I was done, I also thought, haha very funny Lord. -Molly
- A couple years ago worship was just very amazing. You could feel the presence of God in the air and there was much joy in the air. A woman (Cheryl Landis) walked up to the front of the church and began to dance. I can't explain it properly, but the atmosphere of the church shifted in a good way. As I watched this woman dance, I started to heavily weep and I was given emotional healing/compassion in my relationship with my mother. I've never had a good relationship with my mom, but I had new found compassion for her. I found a new way to pray for her because of Cheryl listening to the Lord's prompting to dance. When God calls us to do something you have no idea the impact it may have on someone else. Worship is powerful. - Anonymous
- **Paul and Angelica outreaches:** Many miracles and amazing things happened during the time Paul and Angelica were here. These are only a few of the stories.

Monday

- Two salvations in Walmart after Angelica asked them if they wanted to experience something cool. They felt the presence of Holy Spirit after prayer and gave their lives to Jesus.
- Easton had written eye patch on his treasure map paper. The treasure map paper is a paper where we essentially write down details from Holy Spirit to look for while we are out on outreach. They saw a man with an eye patch right away in town and were able to pray for him. Even more funny is later another group from our outreach also met and prayed for this same man. Haha
- A woman we prayed for had decreased pain in her body at Walmart. When we showed her the treasure map paper we had prepared in advance, she said she had almost all of the health issues listed or maybe even all of them. Hard for me to remember exactly now for sure. She was very open to receiving prayer.
- A man had clearer vision after prayer. We didn't know how much so, but he did note improvement.

Wednesday

- On Wednesday I went on the outreach with the youth. It was so fun to watch the kids share testimonies when they got back from the outreach. They were excited about the things they saw. Many saw healings and knew the Lord was speaking to them about others. These kids are world changers and just need the space to exercise it! It was amazing to see them being who they are.
- Before we went out, Paul and Angelica shared about a woman getting healed out of her motorized scooter at WinCo and a woman getting her back pain healed. Was a huge faith builder for the group!
 - Brexton had on his list face tattoo, name is Jacob; They were leaving Walmart and saw a Walmart employee at the door named Jacob with a face tattoo. Jen said Brex should go up to them and Brexton said "OK" and went up to him and said "this might be weird, but I think you're on our list." Then they explained the treasure hunt and he said "it is weird." They asked if they could pray for him, and he was willing. So, Brexton, James and Josiah went up to him and prayed for his back. He was thankful and said it gave him peace of mind.
 - One of the boys in my group had written Goodwill on their paper. It was Eli or Jaden; I can't remember which one, they are identical twins so I hope they understand. We went to Goodwill to pray for people. I had pink hair and hip on my paper. Right when we walked into Goodwill, we saw a girl with pink hair. She did need prayer for her hip and back. They knew it was God that brought us there and seemed blown away. Her boyfriend was newly saved and had been teaching her about Jesus.
 - Outside WinCo we met a girl named Val. She had some healing in her ankle. She is often outside at WinCo with her dog and can use us to love on her and pray for her. She said she has a brother into witchcraft as well. Please be praying for her brother and Val as well. Val said she does know Jesus, was open to prayer, and very kind.
