

## August Testimonies

- Last Saturday a client/friend called me to say she was having out of control vertigo again. Reflexology treatment I had done a couple days before should have started to help, but it hadn't, and given various other circumstances, I felt there was a spiritual element and I told her I was going to pray. I prayed over the phone for every root cause I could think of! She said that after I broke witchcraft and then commanded her eustachian tubes to open her ears started to crackle and she felt drainage in her throat. She made an appointment for follow up treatment the next week, but ended up giving it to someone else, because as soon she hung up the phone, the dizziness left and never came back!

A couple days later her husband got a probable cancer diagnosis. I wonder if the Lord allowed the vertigo and then provided instant healing to raise their faith for this even harder circumstance.

-Casey

- About a year and a half ago we had bought a new laptop. It shortly completely died. My husband saved it even though it didn't work. About a year later he took it to work and gave it to a co-worker to look at. He had found an actual literal bug inside the computer that had touched two parts of it and fried the computer. The bug was not from around here. Maybe even from China. In a microscope it looked like Godzilla. When chatting about that story it just became really clear to me that the enemy had done that. This wasn't the first totally dead computer issue from nowhere that we have had. So, we spent some time in prayer and repentance as well for any sin we have ever done involving a computer. We also demanded 7-fold repayment from the enemy because he had been caught and needed to pay us back! (Proverbs 6:31) Somehow, we still had this laptop and my husband tried to give it to another co-worker to just keep for parts. This guy took a look at it where the bug had been fried and found a microscopic area where it needed re-soldered. He went ahead and fixed that and the computer was totally fixed. He gave it back to us and it works perfect! The enemy does indeed have to pay back what he steals from us. -Anonymous
- A woman called the office today, because she read in a book about someone being healed at a healing service at our church. She wasn't completely sure that she had the right church, but she wanted to know about our healing services. I told her that we don't have regular healing services, but once a year we have someone come to do training for us that are healing services. I then asked her what book it was, because I'd never heard that VCC was in a book. She said it was *Miracles Today* by Craig S. Keener. Then she read a portion of the paragraph. As soon as she said Kent Gross and Lee Schnabel, I knew she had the right church. I told her that Lee did not share here on a regular basis, but that Paul Rapley came to share in May. She said that she would call back in April to find out more about it. She seemed pretty intent on a healing service, but I told her she was welcome to come anytime to the church office or to our Sunday service to be prayed for. We don't have to wait for a special healing service to pray for and experience healing. We don't even have to come to church. Anyone can pray for healing for someone anywhere and at any time.

- The following is a description of God's hand involving a surgery I had scheduled for July 18,2024.

On July 9th, I saw my primary care provider and got a clean bill of health. On July 10th, the following day, I woke up and I was so dizzy that I couldn't stand by myself. On July 12th, this was still the case, when I had my blood drawn at the local hospital in preparation for an upcoming appointment with my cardiologist. The results were some of the healthiest of my adult life, yet I was still dizzy. On July 15th, the sixth day of dizziness, I called and cancelled an elective surgical procedure scheduled for three days away on July 18th. Because of my dizziness, I also called an ENT physician, whom I had never seen before, seeking an appointment. There was an opening the next morning at 8:50. REMARKABLE! That same day that I cancelled my appointment, my dizziness subsided. The ENT doctor said he believed my dizziness was caused by my neck. On July 16th, the next morning, I texted my massage therapist, Dave, who usually schedules about two months out. He texted me at 1:30 that afternoon, saying he had a cancellation and he could fit me in at 2:30, in an hour. Dave, could easily see where the problem was in spite of the fact that I had no neck pain. On July 17th, my wife commented, "Maybe God didn't want you to have that surgery for some reason". On July 18th, the original date of my surgery I still had no dizziness and have not been dizzy again as I write this. On that day, July 18th, you may recall there was a world-wide failure in the IT sector effecting financial institutions, airline companies, and yes, even local medical facilities. Could it be coincidence or that God's hand intervened and protected me once again from some unknown danger? And all He asks in return is that I love Him! -Dennis Abeene

- Portland to Denver flight:

Prayed for elderly gal next to me, terrified of flying. We talked memories of wood roller coaster etc - was turbulent & similar stomach "jump"! Said she didn't like Ferris wheels. Said I loved bumper cars & biffing my cousins!

Later, had a word of knowledge! ASKED if she baked. Oh My! Did I get a 25-minute story! For 10 years she worked at Colorado Hunting camp (deer, elk, bear) August through October & she did fresh yeast bread, variety of cookies, deserts, Indian fried bread for tacos 3 meals/day. They served 30-40 men each week. Some traveled from NY. She once got a tip of \$500! Story of hearing cougar, encounter bear in walk, pond owner stocked with fish. TOLD her Abba, Jesus, Holy Spirit loves her. HE told me to ask her that (Jesus & woman at the well)

WENT into Denver seated area & asked young worker if she was interested in the Supernatural. YES! Told her about Elijah Streams on Rumble.com & awesome Prophets, including Donna Rigney this week. Asked if I could pray for her & what for. Yeah! Did as she asked with Jesus simple terms & that HE would make himself real to her. She thanked me. Go Yahweh!

Multiplication In Jesus Name & Blood!
