

Good Afternoon, EFCE:

If you were with us Sunday morning, or have since listened to the message online, you will have some context for what follows . . .

Angel Studios is the group behind the production and release of the Life of Christ series, "The Chosen." They have recently purchased the rights to, and released, a film about one of the most sickening evils of our modern world, child sexual slavery and trafficking. This obscenity is quickly overtaking illegal drug trafficking as the largest such industry in the world.

The film stars Jim Caviesal (He is the actor who portrayed Jesus Christ in Mel Gibson's film: "The Passion of The Christ.") The title of the film is, "**The Sound of Freedom!**" This production was not filmed or produced by Angel Studios; but it was purchased by them, after being shelved by several Hollywood Studios, because of importance of the subject matter and the production value. It has the potential of moving this obscene scourge "out of the shadows;" even as "Unplanned" did the abortion industry, a few years ago.

It is gritty! And, it uses some "salty" language! (Three or 4 times a four-letter word is used! But, it is not the "F-Bomb.") It is rated PG-13, and it is not for Children! But, after Beccy and I saw it Sunday evening, I knew I had to challenge you -- my Brothers and Sisters in Christ -- to carefully read Ephesians 5:1-16; and then to go and see this film and to be alerted to this evil in our Community, our Nation, our World!

I think seeing this film is so important, that if finances would prevent you from purchasing a ticket, call me. (A Caveat: I won't find ticket-money for anyone under 15!)

All for Jesus, Pastor Craig
