Verse / 1264

Let the thirsty come and drink
Let the hungry come and feast
You're the living bread of life
You're the well that won't run dry
Let the weary come and rest
As You heal our brokenness
You're the lifter of our heads
And You keep Your promises

Pre / 34345

We welcome the King of Glory
We lift up our hands and sing

Chorus / 1264

Open the ancient gates
Fling open Heaven's door
We want to see Your face
Come inhabit us
Spring up revival wells
Stir in our hearts and souls
Our praise is where You dwell
Come inhabit us

Verse 2 / 1264

Let our hearts become your home
A place for you and you alone
Come and fill us with Your fire
Let Your name be lifted higher
Come and fill us with your fire
Let your name be lifted higher

Bridge / 1264

You move when we pray
You come and we change
You hear when we say
Come inhabit us
