#### WE ARE...LAS PALMAS

The 2024-2025 school year ended on June 10. This marked my 16<sup>th</sup> school year at Las Palmas. Each year I reflect on how much God has done for the school. The school looks different and we have a lot more students but our purpose remains the same. We focus on teaching students based on God's Word and preparing them to go into the community and make a difference for the Lord.

In April and May I was able to step back into the classroom to teach 6<sup>th</sup> grade. This was challenging to do along with being the coordinator but I LOVED being in the classroom. It allowed me the opportunity to teach but also build relationships with the students.

In May we had our elementary spring program. This was a time for students to showcase what they learned in music and Mr. Fidel, our campus pastor, shared our theme of the year with the families. Our theme was "Our Glorious Jesus".

#### SUMMER

Although classes are finished, the campus is still busy. We have some small construction, summer school, and summer camp. I am at the school almost every day preparing for the 2025-2026 school year. Things are quiet in the elementary building and I enjoy the summer projects.

#### LAS PALMAS NEEDS

We are still looking for teachers for the 2025-2026 school year. Please pray for us to find people who have a desire to serve the Lord through education.

- 6<sup>th</sup> grade English, math, and science teacher (taught in English)
- High school science teacher (taught in English)

#### PRAYER REQUESTS

- Teachers for the 2025-2026 school year.
- A new (to us) car
- Wisdom as we raise Hannah and Chloe.

#### PRAISES

- The 2025-2026 school year was successful.
- The school helped many families.
- Hannah completed K3.

#### MORLA FAMILY UPDATE

Chloe just turned 1. She is growing so fast and should be walking any day.

Hannah is attending two different day camps this summer. She likes being active and being with other children so camp is perfect for her.

In April, Jean Carlos opened a coffee shop in San Pedro. This has been an exciting adventure for our family and many people are enjoying the calm atmosphere in the busy city. We are hoping this will eventually help supplement the financial support we are lacking.
