Harvest

Success!

First of all, it is hard to believe we've been ministering on the reservations of New York for at least 18 years, but I suppose pictures do not lie! Second, with the lowest graduation rate in America, it is so wonderful to see a Native American succeed in life!

This is Damien, (grandson of Pastor Jeannie). You can see him with Deborah as an infant, then in Sunday School, then proudly graduating from high school this year. He has already begun successfully working in an auto body shop and loves it. In addition to his graduation photo, he is also pictured on his school Lacrosse team. His life is a testimony of prayer, Godly parents and grandparents,

and brothers and sisters in the church that have supported his journey. *God is so good!* We continue to pray and minister to the many young people who are still growing and dealing with the difficulties of reservation life.

Upcoming News

- There have been several outreaches on the Alleghany Reservation this summer, as well as the Seneca Pow Wow. More info will follow about all these events!
