The LSC fees and annual service rates include in-center instruction/support time as well as time spent planning, meeting, and collaborating with parents, homeroom teachers, and administration. Like tuition, the service rate is an annual rate and is not prorated for absences, holidays, or shorter months.

**Mid-year student onboarding:** We will prorate service rates for students who begin services *after* the start of the academic year on a quarterly or monthly basis, depending on the time of onboarding and proximity to the start of a new quarter. If the student does not begin at the start of a new quarter, we will prorate service rates based on a monthly prorate (annual service rates will be prorated based on a 10-month academic year). Students who start on or after the 15<sup>th</sup> of the month will be charged one-half of the service rate payment for that month. If the student has four or fewer school days in the month he or she starts services, service rates will be waived for that first month.
