Scan Me

Every trip includes a day and half safari and a boat trip up the Nile River to Murchison Falls.

## What to Bring

### • Essential Items:

- Valid passport and visa.
- Vaccination certificates.
- Personal toiletries and medications.
- Sun protection: sunscreen, hat, and sunglasses.
- Insect repellent (malaria prevention).
- (Optional: Water bottle with filter system). **Do not drink unfiltered water.**
- Always use bottled waters, even in the hotels. We will keep water bottles in the vehicle at all times.
- If motion sickness is an issue, please bring medicine to help.
- Many people on first trip get tummy issues, imodium or Pepto is good to have.

### • Clothing:

- Lightweight, modest clothing for hot weather.
- Comfortable walking shoes.
- A light jacket or sweater for cooler evenings.
- Swimwear for any water activities. There is a pool and spa at hotel.

### • Optional:

- Camera or smartphone for photos.
- A journal for reflections.
- Snacks or comfort food (Protein bars are good).

### • Communication:

- Critical communication link: Download Whatsapp, share it with your friends. It is basically Messenger for international travel (messaging over internet).
- Some phone plans (I use AT&T) have a good international calling plan (\$10 a day and it's just like being in the US). It must be set up before hand

Check out [www.amigossafaris.com](http://www.amigossafaris.com) for more details.

Cost: \$2,000 + Airfare

Sign Up by: March 1, 2026

Final amount due: July 1, 2026

### Currency:

The local currency is the Ugandan Shilling (UGX). ATMs are not available. Bring cash or credit cards for small purchases. There will be plenty of time for souvenir shopping. Negotiations are expected and haggling with merchants is part of the fun.

### Connectivity:

Wi-Fi is available in most accommodations, though it may be slow. WhatsApp is a good app to have. ATT offers an international plan that is \$10 a day and it's just like being in the states (but much slower!).

### Health:

Bring a basic first aid supplies a few bandaids go a long way. Be mindful of hygiene practices to avoid common travel illnesses.

If you have health issues, a global health travel insurance package is a good idea.

### Your primary task:

Although this is a mission trip, your primary responsibility is to love on the people. While there are no specifically assigned work projects, we will be assisting with a medical camp where we will have the opportunity to minister to and care for individuals in need of medical attention.

We will also be taking the gift raised through VBS directly to the village—allowing us to personally deliver what our church and children have given. This is such a meaningful, hands-on way to bring missions to life, not only for our children, but for our entire church family.

This trip is designed to give you an overall understanding of the work being done and to prepare you to be ambassadors for Amigos and for the Lord when you return home. There will be no shortage of children and families to love on—so don't be shy. If you're willing, you may form relationships that last a lifetime.
