

SEEDLINE SOUTH

a ministry of Providence Baptist Church

Pastor and Praying Friends,

2025 / 2026

Happy New Year! As 2025 comes to a close, we welcome 2026. A new year of hope, possibilities and amazing opportunities in our Lord and Savior Jesus.

This past year was truly full of mountain tops and valleys. God was very present in both. I would like to recap some of them:

A. Ministry:

1. We completed 31 Scripture Projects, the most we have ever done in a calendar year.
2. Approximately 1.5 million copies of Scripture produced by our Project and Planted Level Churches, this is also the most we have ever done.
3. Also, for the first time we added 7 new churches in 2025.
4. And 2 of our Planted Level Churches reached magnificent milestones. Pine Bluff Baptist Church in Albany, GA were able to assemble their 1 millionth John & Romans, while Eastern Avenue Baptist Church in St Cloud, FL assembled their 4 millionth in just 9 years of being active in Seedline. Both are exceptional accomplishments and are a testament of their dedication of providing God's Word to a world that desperately need it. I was extremely blessed to attend both of their special services commemorating their achievements. Our other planted level and project level churches also made incredible contributions to sending the Gospel around the world. We are extremely thankful to all who prays, give, sacrifice and/or participate. We celebrate God's goodness and the accomplishments He allows through the service of His people.
5. Our ministry was blessed to have purchased a newer model forklift while donating our old one to one of our Seedline Churches. We also added a few staplers to our Ministry. These are definitely a blessing because our staplers take a beating but are vital to our Ministry.

B. Family:

Many of you have been praying for Tanya's health. Since being diagnosed with stage 3B colorectal cancer in March 2022, she has endured countless surgeries, treatments, scans and Doctors visits. In February 2024, she was diagnosed with stage 4 metastatic liver cancer. More chemo and radiation followed. During this time, blood clots developed in several places near her port and in the main vein from her neck to her heart making cancer surgery to risky. Her alternative was an internal radiation treatment (Y-90). She had her first one in December 2024. Three months later the scans revealed about 30% of the tumor remained. In May of 2025, she received another one. We were very hopeful it would be completely gone. We knew God can and we were asking that He would. For some reason, and He knows best, the scan in September revealed the cancer was still there. The blood clots are continuing to be treated. We have been referred to a cancer surgeon in Athens. We are hoping to be seen in the next few weeks. Please continue to pray. God is able (Ephesians 3:20)

Tanya and I celebrated our 32nd wedding anniversary in September. Our daughter Lauryn turned 25 in June and Levi became a teenager in March. The Lord is Good.

Looking ahead to 2026: I'm looking forward to a wonderful new year. Many opportunities to share His Word and involve folks in Scripture Assembly have already presented itself. May God be glorified!

A huge "Thank You" to all who have prayed, participated in Seedline and sacrificially gave to allow my family and me to continue in this wonderful and much needed ministry. (Joshua 24:15)

We hope your New Year is bright and blessed.
