

Dear supporters and prayer partners,

We have completed our first term in Chile and are returning with a newborn! God has really blessed us! We made lots of progress in learning Spanish and had fruitful ministry as well. However, we have also faced our share of challenges. While we are confident in God's power, we believe that God has allowed difficult circumstances in our lives to redirect us back to the United States. We have officially submitted our resignation and will no longer be receiving funds as support for our ministry.

Your support and prayers have been a huge blessing to us! We are so grateful!

My wife has been diagnosed with Hyperemesis Gravidarum. This has resulted in very difficult pregnancies, and I have decided to bring her back to where I can meet her needs well. Our current plan is to find a position as an assistant in ministry. Lord willing, He will open a door for us in the near future.

I cannot overstate how much you have helped us. God has taken care of us through the faithful prayers and giving of supporters like you! We sincerely thank you.

**In God's grace,
Joe and Hallie Taylor**
