

The Pregnancy Help Center provides love and hope to people who are facing an unexpected pregnancy or just don't know what direction to go as they navigate life with a new baby. There are several opportunities for volunteers to help love on their clients:

Making meals for HOPE (Help Offered in a Pregnancy Experience) classes on Tuesday evenings. These can be purchased meals or home-made. Typically for 15 to 30 participants, but this can change with each class.

There are also opportunities for both men and women to help clients as they navigate pregnancies.

Call the PHC office at 979-297-3622 for these and other volunteer opportunities.
