

BT Music Ensemble Class Fall 2024

### *Practice Chart / November-December*

**Instructions:** You must practice your instrument OR work on a music theory worksheet for 15 minutes a day, five times a week. It does not matter which five days you practice, as long as they are five distinct days. You may not count 30 min. of practice on one day as two days of practice. Each day you practice, a parent or guardian must initial in the box for that day. It might help to practice about the same time each day (i.e. in the morning or right after school), so you can get into a routine of practicing and having your sheet signed. You get three freebie days for this practice chart, which you can assign beforehand or use after. You are not required to practice during holiday breaks.
