**Notebook Standard**

In utilizing the Principle Approach at EGCA, we ask that students be equipped with the foundation tool of teaching and learning – the notebook. This is defined as a **hard cover**, 3-ring binder, of a durable quality for the daily use, wear, and tear. These binders are readily available at Walmart, Target, Staples, or any other supplies store in a variety of colors, sizes, and prices. It is recommended that you choose a binder with a spine window for labeling and/or binders of various colors. **Before school begins, label each notebook with the subject and the full name of the student.**

Students use these notebooks to maintain a record of their education through the subject organization of regular note taking, assignments, essays, tests, and the proper securing of class handouts. Additional items needed for your child's grade level are listed below.

- 5 **1" binders:** Language Arts  
Math  
Science  
History/Geography  
Bible
- Index divider pages (25 should be sufficient)
- 5 packages of college ruled paper

**Teachers will set up binders with students during the first week. All supplies should come in on the FIRST day. No extras please as we have no storage for extras.**
